DAILY OPERATIONS GUIDE

For counter staff — Boulangerie [Client Name]

Your 3 daily tasks

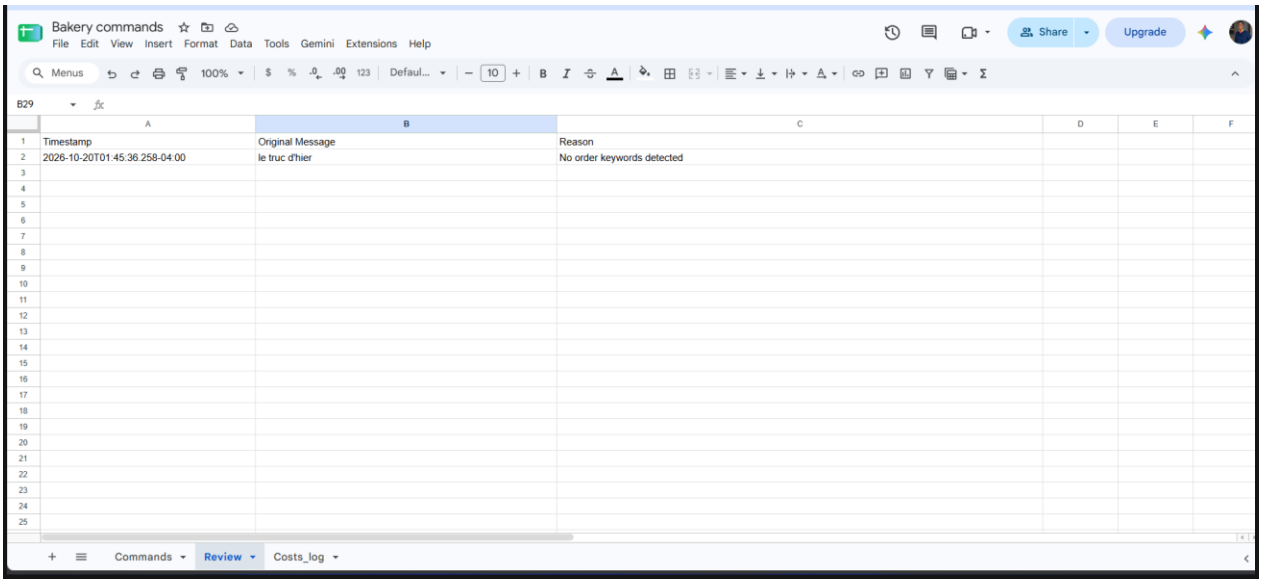

The system handles orders automatically. You only need to do these three things.

Task 1 — Morning check (5 minutes)

When: Every morning before opening

What to do:

1. Open the Google Sheet "[Bakery] Commandes"
2. Click the **Review** tab
3. If any orders are listed there, read the original message
4. Add the correct order manually to the **Commandes** tab
5. Mark "HANDLED" in the Review tab

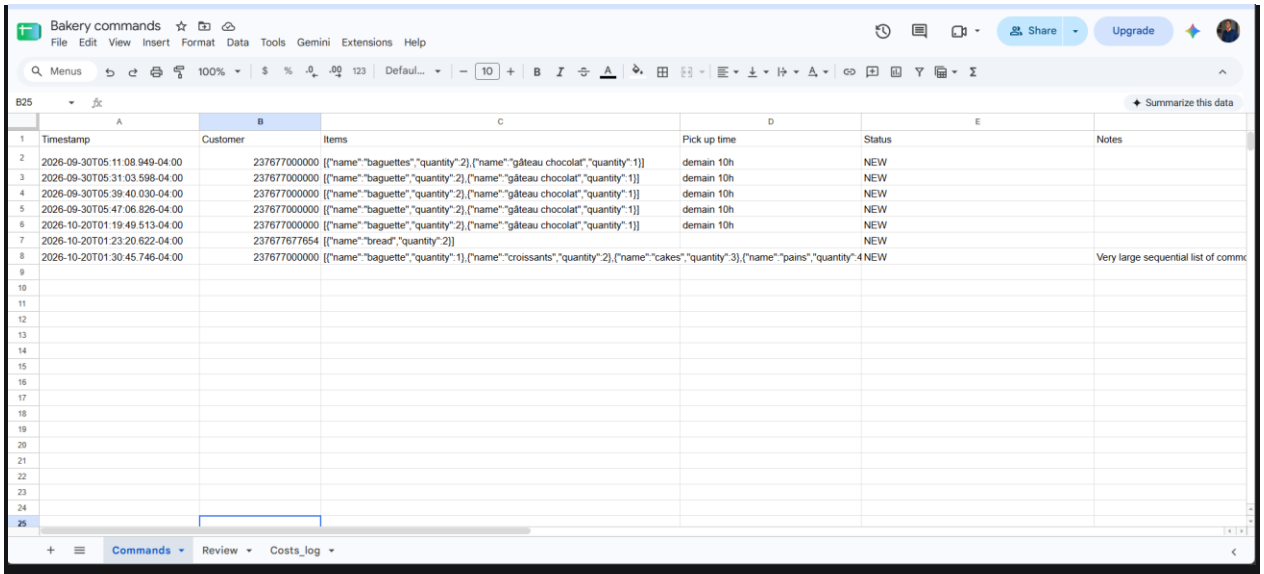

Why: The system flags messages it could not understand. A human needs to read those.

Task 2 — Evening check (3 minutes)

When: Every evening at 20:30

What to do:

1. Open the Google Sheet
2. Click the **Commandes** tab
3. Check that all orders for tomorrow are listed
4. If anything looks wrong, WhatsApp Gam Geofrey

	Timestamp	Customer	Items	Pick up time	Status	Notes

6	2026-10-20T01:19:49.513-04:00	237677000000	[{"name":"baguette","quantity":2},{"name":"gâteau chocolat","quantity":1}]	demain 10h	NEW	
7	2026-10-20T01:23:20.622-04:00	237677677654	[{"name":"bread","quantity":2}]		NEW	
8	2026-10-20T01:30:45.746-04:00	237677000000	[{"name":"baguette","quantity":1},{"name":"croissants","quantity":2},{"name":"cakes","quantity":3},{"name":"pains","quantity":4		NEW	Very large sequential list of comm

Why: The owner gets a WhatsApp summary at 20:00. You confirm the sheet matches.

Task 3 — Mark exceptions (as needed)

When: Whenever a customer complains or changes an order

What to do:

1. Find the customer's order in the Commandes tab
2. Write **"HANDLED"** in the Status column
3. If needed, add a note in the Notes column

E	F
Status	Notes
NEW	
NEW	
NEW	
NEW	
NEW	
NEW	
NEW	Very large sequential list of common bakery items.
NEW	The request is clear despite the mix of French and Pidgin.

Why: Keeps the record clean and helps [Your Name] see patterns.

What NOT to do

- Do not delete rows in the sheet
- Do not change the column headers
- Do not edit the AI's parsed orders
- Do not turn off the n8n workflow without calling first

If something looks wrong

Open Document 3 — *When Something Looks Wrong* — and follow the symptoms table.
